Submission ID: 167324

Timestamp: 10/26/2026 3:35 PM UTC

Name: Edward Pena De Dios

Challenge ID: 76

Challenge Title: Firewall Update: Tables for Two

This report has not been published by a curator. Experience Cyber cannot vouch for its accuracy.

Scenario

The way firewalls in Linux are implemented is changing. We need you to make sure our Linux boxes are keeping up with those changes so that we don't create any problems for ourselves in the future.

Duration

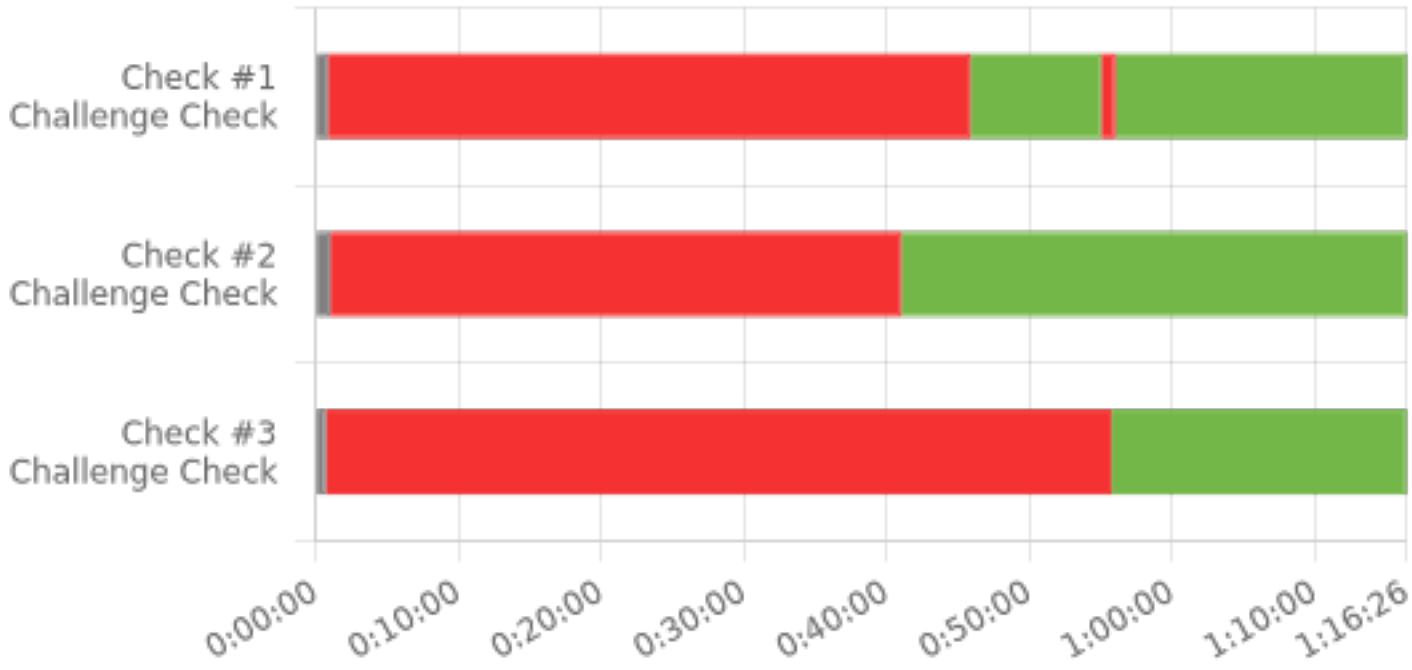

1:16

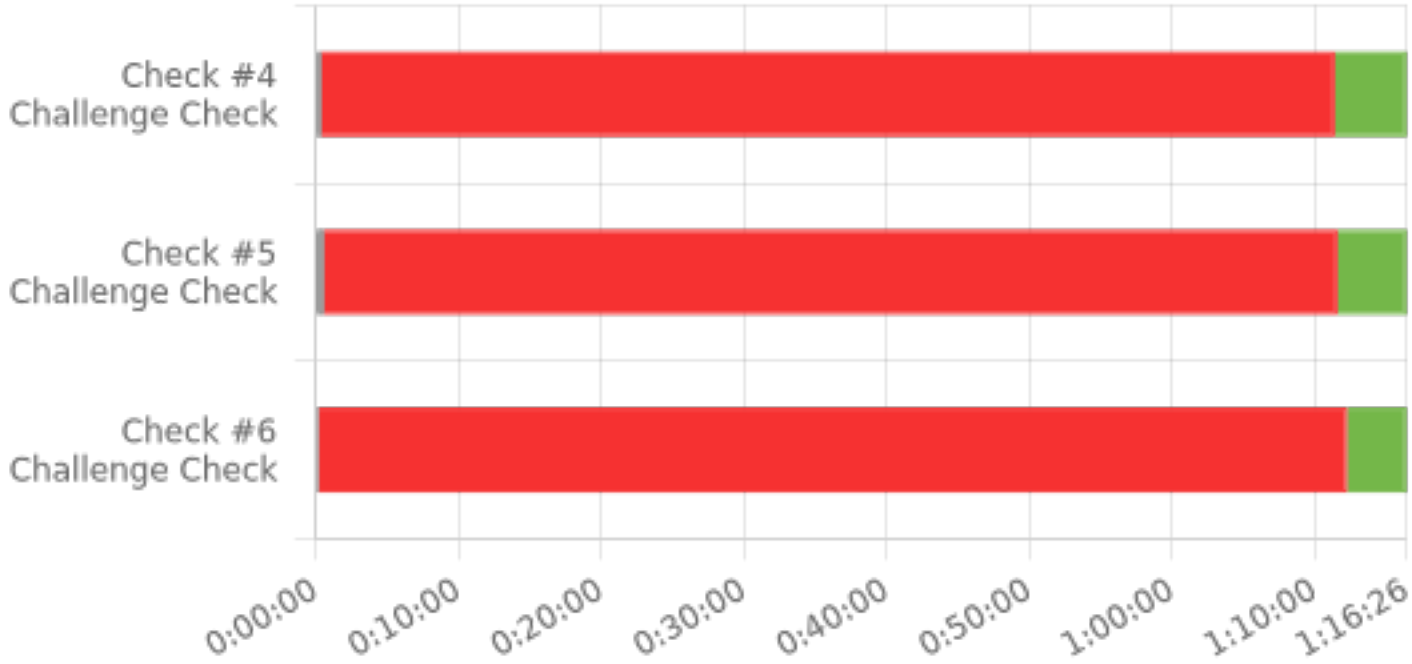

Full Check Pass

Full: 6/6

Final Check Details

- Check #1: Prod-Joomla iptables Uninstalled
- Check #2: Prod-Joomla nftables Service Enabled
- Check #3: Prod-Joomla Filtering Traffic Correctly
- Check #4: Fileshare iptables Uninstalled
- Check #5: Fileshare nftables Service Enabled
- Check #6: Fileshare Filtering Traffic Correctly

Element

Cybersecurity

Work Role

Cyber Defense Infrastructure Support Specialist

DCWF Tasks

• 769: Perform system administration on specialized cyber defense applications and systems (e.g., anti-virus, audit and remediation) or Virtual Private Network (VPN) devices, to include installation, configuration, maintenance, backup and restoration.

Knowledge, Skills, and Abilities

• 22: Knowledge of computer networking concepts and protocols, and network security methodologies.

• 92: Knowledge of how traffic flows across the network (e.g., Transmission Control Protocol [TCP] and Internet Protocol [IP], Open System Interconnection Model [OSI], Information Technology Infrastructure Library, current version [ITIL]).

• 1072: Knowledge of network security architecture concepts including topology, protocols, components, and principles (e.g., application of defense-in-depth, Zero Trust).

• 1158: Knowledge of cybersecurity principles.

• 3143: Knowledge of basic system, network, and OS hardening techniques.

• 6670: Skill in system, network, and OS hardening techniques.

Centers of Academic Excellence Knowledge Units

• Basic Networking

• Cybersecurity Principles

• IT Systems Components

• Network Defense

- Network Security Administration
- Network Technology and Protocols
- Operating Systems Administration
